

# DESIGN ENGINEERING'S INDEX FOR 1984

## ASSEMBLY

- Fasteners to solve assembly problems ..... Mar p12
- Adhesives: new ideas for changing needs ..... Mar p17

## AUTOMATION

- Trends in automation ..... Nov p14
- Robot uses laser to trim parts ..... Nov p14
- Tube forming automated ..... Nov p15
- Monitor improves productivity ..... Nov p15
- Fast, automatic roll winding ..... Nov p16
- Automatic programming for robot ..... Nov p16
- Technology centres: lots of help to offer ..... Nov p21

## CAREERS

- An employer's view of the job market ..... Jan p28
- Job hunting: how to combat the usual hurdles ..... Mar p44
- Career planning—look out for the future ..... May p32
- Reference checks could catch impostors ..... Jul p120
- Tough job market entails career planning ..... Sep p36
- Job hunting: little things mean a lot ..... Nov p36

## DESIGN OFFICE

- Design outlook ..... Jan p16
- CAD/CAM: the changing scene ..... Feb p10
- Long distance computer link ..... Feb p10
- More emphasis on software ..... Feb p10
- New drafting software ..... Feb p11
- Versatile new workstations ..... Feb p11
- Workstations: the future ..... Feb p13
- Powerful, compact computer ..... Feb p13
- Computers save time, cut costs ..... Feb p14
- Today's design office ..... Feb p17
- Developing a data base for CAD/CAM applications in injection molding ..... Aug p18
- Automotive report ..... Sep p10
- GM: finding a new way ..... Sep p10
- Ford: more applications for computers ..... Sep p11
- Chrysler: a high-technology plant ..... Sep p12
- AMC: cooperation shapes Alliance ..... Sep p13
- You can take it with you: portable computers and calculators ..... Dec p12
- Industrial design report ..... Dec p20

## ELECTRICAL AND ELECTRONIC

- Electronic navigator for cars ..... Jan p19
- Programmable controllers: a look towards the future ..... May p17
- Proximity controls: sensors and switches ..... Aug p14
- A sampling of sensors and switches ..... Aug p15

## FLUID POWER

- Advances in hydraulic equipment ..... Jan p10
- Packaged power units: design update ..... Jan p13
- Fluid power: novel components and case histories ..... Apr p25
- Positioning without positioners ..... Apr p25
- Fluidics control paint level ..... Apr p25
- Cylinder senses and positions logs ..... Apr p26
- Hydraulic motor for tough jobs ..... Apr p26
- Cylinder limit switches ..... Apr p26

- Pneumatics solve assembly problems ..... Apr p26
- Hydraulics speed ship unloading ..... Apr p28
- New Canadian cylinders ..... Apr p28
- Tray packer capacity doubled ..... Apr p28
- Hydraulic/microprocessor interface ..... Apr p30
- Fast payback with air logic ..... Apr p30
- Long life, no lubrication ..... Apr p30
- Air-powered robot helps make robots ..... Jul p16
- What's happening in hydraulics ..... Jul p18
- The selection and care of hydraulic fluids ..... Jul p21
- Canada's Fluid Power and Controls Buyers' Guide 1984/1985 ..... Jul p25

## MATERIALS

- Seals and packings: more choices for users ..... Mar p21
- What you should know about coatings for steel wire ..... Mar p25
- Material changes in auto designs ..... Apr p14
- New applications for materials ..... Apr p19
- Plastics review ..... Sep p14
- Steel bar springs: cost-reducing design tips ..... Oct p20
- A basic guide to steel wire ..... Nov p24

## MECHANICAL POWER TRANSMISSION

- Bearing report ..... Jun p15
- Bearing and pin assemblies ..... Jun p15
- Bearing strips ..... Jun p15
- Lighter suspension strut bearings ..... Jun p15
- New seals double bearing service life ..... Jun p16
- High-performance spherical roller bearings ..... Jun p16
- A choice of off-the-shelf bearings ..... Jun p16
- Linear ball bearing systems improve productivity ..... Jun p17
- Versatile bearing mount ..... Jun p17
- High precision spindle units ..... Jun p17
- Variable preload bearing unit ..... Jun p17
- Simple brake, complex bearing ..... Jun p18
- New yoke style idler-rollers ..... Jun p18
- Mounted spherical roller bearings ..... Jun p18
- Self-lubricating bearings ..... Jun p18
- Cleaner steel for bearings ..... Jun p20
- Tougher slewing rings ..... Jun p20
- Split roller bearings ..... Jun p20
- Bearing assemblies use P/M process ..... Jun p20
- A design engineer's guide to electric clutches and brakes ..... Oct p17
- Mechanical Power Transmission Buyers' Guide 1984/1985 ..... Oct p23
- Variable speed drives ..... Dec p15

## MISCELLANEOUS

- Preview: Design Engineering Conference ..... Feb p24
- Preview: Design Engineering Show ..... Feb p25
- CAD/CAM and Robotics Exhibition and Conference Preview ..... May p10
- 2500 mpg predicted for fuel economy vehicle ..... May p22
- Canadian Design Engineering Show in Print ..... Jun p22
- Ship unloading system draws orders to Canada ..... Aug p21
- How to specify magnetic protection for conveyed materials ..... Sep p16

# DESIGN ENGINEERING'S INDEX FOR 1984
